### **Preferred Freezer Services Houston Gulf Coast Set to Open in Weeks The Company's Fourth Facility in Houston**

**Chatham, New Jersey** (March 19, 2017) – Preferred Freezer Services (PFS), a global leader in advanced design and engineered temperature-controlled warehouses, announces their Houston Gulf Coast facility in Pasadena, Texas is set to open in early April. The state-of-the-art cold storage facility will be the company's fourth facility in the Houston area adding over 25,000 pallet positions to the company's expanding footprint.

The new facility will satisfy demand for modern and efficient cold storage warehousing services near the Port of Houston Bayport terminal. The PFS Gulf Coast facility provides more than 9 million cubic feet of temperature-controlled storage space and is conveniently located near Highway 146 and Bay Area Boulevard.

PFS Houston Gulf Coast will have multi-temperature capabilities as well as blast freezing technology. The facility has eighteen dock doors, a 90-foot-deep dock, and an oversized truck and container drop lot that will allow for quick and convenient truck loading and unloading. The facility will offer full USDA import and export capability and include a multi-purpose room for additional value-added services.

“With one of the most modern and environmentally sensitive container terminal on the U.S. Gulf coast minutes away, we are proud to service the Houston Port area with demand for temperature-controlled buildings. All of our facilities comply with food safety regulatory requirements from a local, state, and federal perspective.” said Brian Beattie, President of Preferred Freezer Services.
