FOR IMMEDIATE RELEASE

Preferred Freezer Services Breaks Ground on the Ninth New Jersey Facility Company keeps pace with increased demand in the Tristate area

Chatham, New Jersey (August 2017) – Preferred Freezer Services (PFS), a global leader in advanced design and engineered temperature-controlled warehouses, celebrates ground-breaking in Kearny, New Jersey. The new facility will be the company’s ninth in the New Jersey area and its thirty-eighth in the United States. The Kearny facility will satisfy demand for modern and efficient cold storage warehousing services exceeding reach to the Northern New Jersey and Manhattan markets. The facility is well positioned to access the George Washington Bridge and Lincoln Tunnel, with easy on and off Turnpike access.

The new facility, scheduled to open in the summer of 2018, will be located where I-95 and Interstate 280 meet, with proximity to exit 15W. The facility will cover over 190,000 square feet with a storage capacity near 30,000 pallets. The completed warehouse will consist of 24 dock doors. Consistency and product integrity will be sustained by a full on-site generator backup. The facility will offer USDA import and export capability, in addition to a multi-purpose room for additional value-added services.

“We are excited to provide additional superior cold storage space in our flagship New Jersey market.” said Brian Beattie, President of Preferred Freezer Services. He added that, “We look forward to offering our Preferred Services to customers that will be able to take advantage of this great location.”

To stay abreast of the Kearny facility progress, visit our website www.PreferredFreezer.com for live webcam footage. For more information on our newest Kearny facility, contact Regional Sales Director John Ingrassia at (973) 820-4070 / jingrassia@preferredfreezer.com.
